DTX-MULTI 12

ELECTRONIC PERCUSSION PAD

MULTI Voices and Effects

The DTX-MULTI 12 comes loaded with a total of 1,277 voices that include an expansive collection of stunning voices and effects from our renowned MOTIF Series synthesizers plus a wealth of new percussion sounds. You can use this extensive palette of percussive tones to create custom kits that fit your playing needs.

MULTI Play Modes

Stick Mode, Hand Mode, Finger Mode. The DTX-MULTI 12 lets you choose the way you want to play and best express yourself.

MULTI Assignments

Up to four voices can be assigned to a single pad for simultaneous or sequential playback. You can also have voices that change according to your dynamics. This opens up a wide range of playing possibilities.

MULTI Patterns

A total of 128 phrase patterns covering a wide range of musical styles are included with the DTX-MULTI 12. User memory allocations are also provided so you can record your own patterns and assign them to the pads. A sophisticated click track function even lets you control the tempo live-off-the-floor.

FRONT

REAR

CASE 1 The Perfect Companion for Your Drum Kit

A huge library of voices and powerful performance features make the DTX-MULTI 12 the perfect addition to any drum kit. Select sounds that fit your playing needs from an expansive library that includes sounds and effects from our renowned MOTIF Series synthesizers in addition to an extensive collection of new percussion sounds.

WITH ACOUSTIC DRUM

CASE 2 All the World's Percussion Within Your Reach

The DTX-MULTI 12 features play modes that give you the freedom to play with your fingers, the palm of your hands, and of course, sticks. Its sophisticated design also makes mute/voice-switching effects possible simply by pressing one pad while hitting the others.

WITH PERCUSSION

CASE 3 Integrates Easily Into Computer Environments

USB terminals on the unit offer easy integration into computer-based music production environments. With the supplied CUBASE AI DAW software, you can use the DTX-MULTI 12 and its pads as an input device for recording MIDI data into the software. You can also load audio data you've created into the 64MB of on-board flash memory, assign it to pads and trigger its playback, which opens up a wide range of additional sonic possibilities. *WAV/AIFF format

WITH COMPUTER

CASE 4 Create a Compact Drum Kit

Connect an HH65 Hi-Hat Controller and a KP65 Kick Pad (both sold separately) to the DTX-MULTI 12 and you have a powerful yet compact drum kit. The unit features a variety of input terminals that let you customize setups according to your needs.

WITH KP65 & HH65
