

THE ALL-IN-ONE PRODUCTION SUITE

**GET BITWIG STUDIO DAW AND EDGE SOLO MODELING MIC  
FREE WITH EVERY PURCHASE OF A SYNERGY CORE INTERFACE**

# The All-in-One Production Suite

The All-In-One Production Suite is the smartest and fastest way to take the leap to pro audio and expand your creativity, without breaking the bank. Assembled to compliment the strengths of our Synergy Core interfaces, all pieces of the All-in-one Production Suite share features to help you start producing album-quality records at home, in the studio or on the go. Record with a mic capable of emulating the distinct characteristics of 18 historic mics, produce with an FX pack that features software models of some of the most recognized analog units in the recording industry, and combine everything with the most innovative music creation DAW software around.

## Purchase a Synergy Core audio interface

Designed with the intention to help you express your best ideas in the studio, all Synergy Core interfaces are equipped to give you creative freedom in your session without having to worry about sound quality or latency. Find new ways to immerse yourself in the recording process by employing real-time monitoring with FX, experiment by routing the signal of your external gear to any channel you want or mix in the box without taxing your computer's CPU. Effortless music making with easy integration to all platforms!

**Get FREE Edge Solo modeling mic** - This single-capsule large-diaphragm condenser mic gives you not only great sound, but also creative tools for the whole production process. Record vocals by picking your favorite emulation of a classic mic and start tracking in real-time. If you want to stay flexible, record clean and present the performing artist with the modeling options later on, in the mixing phase.

**Get FREE Bitwig Studio 3** – The full version of the cross-platform DAW is for anyone who dares to be creative and has a knack for experimentation. With a big variety of instruments & effects for sound design and over 3,000 sounds & factory presets, the innovative software is also an extremely effective tool when it comes to flexibility in audio editing. The vast modulation possibilities that Bitwig gives you and the DC-coupled outputs in all Synergy Core interfaces is a dream combination for everyone seeking options to control analog synthesizers with CV.

**Get FREE FX Pack** – Start creating music the moment you unbox your new interface! All our Synergy Core devices come with analog-modeled plugins for producing, recording and mixing. All effects are handled by the Synergy Core processing module which delivers imperceptible latency and real-time monitoring for the most enjoyable recording experience. In your FX library you can find a New York-born compressor, Finnish-design pedal and many more software-modeled FX.

THE ALL-IN-ONE PRODUCTION SUITE

# How It Works

1. Buy a Synergy Core audio interface.
2. The free Edge Solo modeling mic will be shipped together with your audio interface.
3. The FX Pack will be automatically added to your user account and will be available to use in the Control Panel.
4. Upon activation of the interface, you will receive an email with a serial number for the full version of Bitwig Studio\*. After registration in the Bitwig website, you will be able to download the software and activate Bitwig Studio.

\* The license of Bitwig Studio includes 12 months of free upgrades.  
It is a part of the All-In-One Production Suite and as such it can't be resold as a stand-alone.

Discover Bitwig Studio, the innovative music creation and performance software.

Arrange in the timeline, perform in the Clip Launcher, and build audio devices  
in The Grid. Bitwig Studio takes your musical ideas through each stage of production.

## One Microphone To Complete Your Mic Locker

Edge Solo is a high-quality single-capsule large-diaphragm condenser microphone by Antelope Audio. Combined with Antelope's cutting-edge modeling technology, it allows users to emulate the world's most iconic vintage microphones with uncanny accuracy.
